I added all the cash lines you need and fixed the project codes. Also, did you get a chance to find out about whether Waste Management needed a program code? If not, you will have a budget error with those lines.

Hi Kristin,

I am preparing to respond to Barbara Cole. Ken is correct, we do have a section under General Information that has links to three food recall sites. <https://rivcoeh.org/food-product-recalls> But we do not post our own list on our website. We also do not typically post recalls on social media. I think we may have posted some lead related recalls as part of the CLPPP program. My question to you, would you like to see more recall information posted on our socials/website? Or stay in our current lane and let the major agencies take care of that? My thought – this would be a pretty time consuming piece to our SM puzzle, unless CDPH has premade posts we can repost easily.

Hello Barbara,

We receive recall notices from CDPH and FDA. We do perform random recall effectiveness checks at retail locations for CDPH notices.

We do post recall information on our website. Let me loop in Jenay Marcotte. She is our PIO.

On Feb 17, 2025, at 11:34 AM, Barbara Cole <BCole@ruhealth.org> wrote:

Good morning

We are discussing potential action related to these recalls. A few questions for you.

1. Does EH routinely receive these notifications regarding recalls, if so, are visits made to the impacted retail sites?
2. Does your PIO post any information on social media about the recalls?

Thanks

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 550 5.1.1 in Office 365](#).

Godod day Sarah,

I'm reaching out regarding the invoice for one of our facilities. We have not received for Nordstrom Inc 584 and after speaking with one of your colleagues they mentioned you would have to complete some document in order to update the mailing address for the billing. The below address has been updated in CERS for the past year and a half.

We would appreciate your assistance.

Best,
Enkomo

Hi Enkomo,

My apologies for the delayed reply. It looks like the facility has two permanent numbers, one state and one federal. The one logged into CERS should be the Federal Number, CAR000354803. Could you please update this in CERS? (See snips below)

Good Morning Sarah,

I was going to reach out to you this morning, I've seen the "under Review" status emails come in from CERS. To answer your question, the only changes that were made were to align all our stores to our Sr Manager of Hazardous Materials Curtis Patton as the site's billing contact section. That way we can have all permits/invoices centralized. Addition to that, I was going to go in once again because the contact information was recently updated for Carlos.

Would you let me know the best contact number for you and the best time we could discuss.

Best Regards,

Hi Carlos,

I'm reviewing the CERS submittals for Nordstrom Inc 411 located off of 2660 Canyon Springs Pkwy in Riverside. I noticed that some facility information changed, including business owner location, billing contact information, property owner, etc. Was there a change of ownership at this location earlier this year?

Hi Mike and Shantel,

Attached please find revised Workplan with my notes and edits. For those items which were deleted, I've added them back. Rather than turning off track changes, please leave track changes on. If you want to remove an item from the workplan, please delete. With track changes it will stay visible so anyone reviewing will know the LPA is recommending deletion. In addition, please include a comment with why it should be deleted.

For those PWS' in the HR2W table, these came from the HR2W list. If something should be deleted anyone reviewing needs to understand why that recommendation is being made.

For those items listed in SNSV, the systems were pulled from mDWW. It is possible between when the list was pulled and the end of June the SNSV occurred and was updated in mDWW by the end of July. I added those systems back and did a spot check. For the systems I looked up, they all still need an SNSV.

If the LPA could review, edit, add notes, and send it back by Friday, August 9, it would be appreciated.

Thank you,
Lisa

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

This email is being sent as a BCC to the LPA contacts, District Engineers and DDW staff who are assigned to LPAs.

Hello LPAs:

The Workplan template for Fiscal Year 2024-2025 (FY 24-25) is now available on the [FTP site](#) for download. The Workplan format has been updated to reflect collection of digital signatures, current information, and to assist CEU staff in the review processes. We will not accept any previous FY Workplan as they are not formatted the same.

We anticipate the Workplan will assist LPAs with defining expectations as they propose work activities for FY 24-25.

Please note the following:

- *Do not turn off track changes.*
- *Do not sign this document until requested to do so.*
- LPAs are **required** to review and complete the fields and tables with yellow highlighted **<comments in angle braces>** or table headers highlighted in yellow.
- To assist with completing the *Sanitary Survey* section of the workplan we have pre-populated this section with surveys currently due based on the completion date of the last sanitary survey in SDWIS as well as the surveys due during the next fiscal year.
 - If these were, or will be, completed prior to 6/30/2024, please strike out the entry by using the track changes feature or add a comment. *Do not delete the row.*
 - Completed sanitary survey information is to be entered into SDWIS by 6/17/2024. CEU staff will make changes to the workplan once sanitary surveys are entered in SDWIS. If adding survey(s) to the work plan, *use track changes.* You may also use a different color to indicate this was added by the LPA.
 - If a sanitary survey table is blank, it means that there were no sanitary surveys past due or due in the coming fiscal year.
- The inventory has been pre-populated with current SDWIS inventory. If you add or delete water systems, be sure to keep track changes on and make the appropriate changes in the total number of water system cell(s).
- Verify the name and title of the LPA representative in the signature block under approvals. If the name indicated is incorrect, please make a comment as to who should be the LPA representative.

Upon completion, please email the revised Word document to CEU assigned staff member (see chart below). The CEU staff member is identified at the end of the Workplan. The CEU staff member will review and work with the LPA and District Engineer to ensure the Workplan meets all requirements.

Current CEU Staff Assigned to LPAs

Madera	Contra Costa	Placer
Mono	El Dorado	Plumas
Napa	Nevada	Riverside
San Bernardino	Sacramento	San Luis Obispo
San Joaquin	Tehama	Santa Barbara

Stanislaus	Yolo	Santa Cruz
	Yuba	Shasta

Once the Workplan is approved by the CEU staff and the District Engineer, the CEU staff member will request digital signatures from all parties. *Do not add digital signature until requested to do so.* The final, signed copy of the Workplan will be emailed to the LPA and District Engineer.

Please submit your workplan to your assigned CEU staff member by **July 3, 2024**.

Hello All!

In an effort to better understand (and hopefully help) with the process of creating the workplan, if you could review the attached.

I ran the 4643 report from Envision. Using the deadline dates, created the excel sheet that only listed facilities with deadline dates within the FY24/25 period. Does this help with the list of sanitary surveys needed in the workplan?

Also, do you want to add some additional fields in HS for dates when the BSSP was updated?

Sincerely,

Hi Luan,

On behalf of our Riverside Team, welcome to the Land Development Program!!! Below is a summary of your tentative training schedule (subject to change if needed). To complement your training, I have provided you with a variety of reading materials that you will need to become familiar with. I would recommend that you print out "DEH OWTS Lamp" since you will be referring to this document frequently throughout your tenure in this program. For the overview of PLUS and Bluebeam, I will be soliciting the help of other more savvy users to help you with this since I am a novice at best.

Please let me know if you have any questions.

Thank you,

Mike

Hello All,

Please confirm any changes you need to happen to the Designated Employees in the attached. IT needs our list as soon as possible to run it along with the redistricting effort. I've also attached the latest inventory sheet from Jeremy Clark for your reference. If something in it is inaccurate, that's what we need to update. Bob, not sure what to do for the Blythe facilities.

In conjunction with this, look for our Area and District coverage reference sheets being worked on by Colleen and Esther now. We'll need to update those to reflect necessary changes as well.

Please prioritize getting both of these done, especially the Designated Employee changes for your Area so I can get them to IT.

Thanks,
Nick

Hi Nick,

The facilities listed in the attached files were separated out into Area and ER District Tabs. I was able to successfully remove the duplicate facilities in the TQR spreadsheet. However, when I used the same function for the CUPA list, it appears to remove entire facilities all together so I left the duplicated facilities in the CUPA list intact. Please let me know if you need me to work on this further. If the attached files are good to go, I will present them to staff during our sweeps portion of the meeting.

Thank you,

Mike

This is what we discussed. It will need to be ordered in a way that is usable by office, while eliminating (or hiding) multiple entries per facility.

The TQR list is one that tracks waste by transporter and by generator.

The other is a list of ID numbers that have generated waste in the last 3 years (at least this is my understanding).

If unmanageable or you think will take too long, let me know and we'll farm it out.

Thanks,
Nick

I usually wait to give these to the CUPA's until their actual evaluation but since we are on the topic, attached are two spreadsheets; 1) the Riverside County Transporter Quarterly Report for the last 3 years (consolidated manifest shipments), and 2) a list of all EPAID#s that have shipped waste offsite over the last 3 years.

I hope you and your inspectors can make good use of them.

Hi Kevin,

It turns out our awesome Office Assistants had already been updating this and I just had the older copy! Attached is a breakdown of area offices and districts, with zip codes indicated. We've hired some new staff, so staff may change/swap districts by the time the in-person rolls around, but that should be minimal.

Let me know if you need anything else!

Nick

Hi Lester,

I know you are very busy with plan check stuff. But if you could spare some time to look at these facilities and update CERS it will help us out tremendously. Also, I need to sit down with you to discuss the vacant district(s) and get your assessment of these areas. I'm going to use this information to make the necessary district assignments for our incoming new staff and/or changes for existing staff if needed.

Thank you for your help!

Hi Jeff,

I am guessing the annual report is final but I did want to bring to your attention that the Hazmat complaint numbers are off by a few hundred.

Also a few of the ER codes were not included which is likely why the numbers were off. I have attached the spreadsheet I sent to you previously (in July I think) which includes the missing codes. Maybe for next year the missing codes could be included for the annual report.

I just want to make sure the department and staff are getting recognized for the work they are doing.

Thank you

Lisa

Steve,

I hope you are doing well!

I've recently taken over the sales role for Steve Sheldon regarding Stockton, CA. I will be out in the area the week of the 24th and was hoping prior to that trip that we could talk about your operations there regarding:

- If you are happy with the level of service at this facility – and what can we be doing better to serve your needs?
- Future market outlooks for you?
- Is there any room or interest in evaluating expansion of throughput/storage volumes and/or services being offered?
 - o As a fresh set of eyes to this operation I would like to evaluate if there would be room to serve you in new or expanded capacities.

Thank you so much for the business that you have done through Stockton to this point – we value our Customers greatly and always want to ensure we serving you well with current business and exploring ways to better fuel your growth as relevant!

I look forward to talking with you more soon!

Hi Celine,

Please create a spreadsheet to track PE 1686. The rate is \$28/application. We (DEH) get \$20 and the remaining \$8 goes to State Food Safety (outside vendor) that manages the online food worker testing portal.

I will be sending you their monthly statements.

Good morning Celine and Ramez,

I am working on County counts for our FY2025-2026 for Nick and need your help. He sent me the attached list and I modified it to include 3 additional columns:

Customer Fund		
Department	Code	Customer Dept ID

I noticed that his list is missing Facility ID #s in column F. Please help me fill in the blanks. Next, please follow step 2 to retrieve the data for County billing info. I have included a link for you to reference 'XLOOKUP' formula.

Once you have completed steps 1 and 2, we will work on step 3 and that is to link Facility ID # to the Permit Manager Record ID from the Permit Manager utility in HS.

This task should be easy to get Celine familiar with our billing inventory.

Please let me know if you have any questions.

Thank you,

Hi Chris,

I have created the drop-down option. Terry will have her staff update the ones that do not need to be published and let me know when she is done. Once she gets that finalized I will let you know. With that being said, is it possible for us to start working on the LPA report. The LPA needs to issue NOV's and it is critical that we get them the list so that they can get that done.

Thank you Chris I appreciate your help.

We would like to establish this for long term.

Going along with your suggestion if we add a drop-down option after certification status. “Publish” 1. Yes 2 . No. will you be able to only include only the ones that have yes as an option?

If that works, I will send to chiefs for approval before we move forward.

A short-term option would be to manually exclude those records in the query I use to create the report, but that approach is not ideal long-term — it requires ongoing maintenance anytime the list changes.

For a more sustainable solution:

Is there a field or setting in HealthSpace we could use to flag these cases? I only see one Yes/No field in the Certification Manager section.

Alternatively, would it make sense to introduce a new Certified Professional Type, such as:

1. *“Professional of Record – Published”*
2. *“Qualified Service Professional – Published”*

This would allow us to control report visibility through data, rather than having to update the query each time a change is needed.

Let me know what you think.

Ok, just talked to land use. The lists look good, but we do have a special circumstance that they need to address. There are a few companies that have requested to be excluded from the list, because they do not conduct projects for the public but still need to be registered with us for their own private project. Are you able to set up the reports so that the companies are excluded or do we need to create something in HS so that the companies are identified. Please advise.

Hi Chris,

I have created the drop-down option. Terry will have her staff update the ones that do not need to be published and let me know when she is done. Once she gets that finalized I will let you know. With that being said, is it possible for us to start working on the LPA report. The LPA needs to issue NOVs and it is critical that we get them the list so that they can get that done.

Thank you Chris I appreciate your help.

Hi Chris,

We would like to establish this for long term.

Going along with your suggestion if we add a drop-down option after certification status. “Publish” 1. Yes 2 . No. will you be able to only include only the ones that have yes as an option?

If that works, I will send to chiefs for approval before we move forward.

A short-term option would be to manually exclude those records in the query I use to create the report, but that approach is not ideal long-term — it requires ongoing maintenance anytime the list changes.

For a more sustainable solution:

Is there a field or setting in HealthSpace we could use to flag these cases? I only see one Yes/No field in the Certification Manager section.

Alternatively, would it make sense to introduce a new Certified Professional Type, such as:

1. *“Professional of Record – Published”*
2. *“Qualified Service Professional – Published”*

This would allow us to control report visibility through data, rather than having to update the query each time a change is needed.

Let me know what you think.

Ok, just talked to land use. The lists look good, but we do have a special circumstance that they need to address. There are a few companies that have requested to be excluded from the list, because they do not conduct projects for the public but still need to be registered with us for their own private project. Are you able to set up the reports so that the companies are excluded or do we need to create something in HS so that the companies are identified. Please advise.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not

generate an enforcement tab with facilities that were on the NOV 2 list for the last run--do you know why? I attached our previous run to show the difference where the enforcement tab is included.

When the HEAP team met yesterday, we established that it would be better to run the program (again) when everyone gets back from CUPA conference, and will have time to review and return the preliminary back to us within the one week deadline. If we send out this list, staff at CUPA will not have the focus to review. Just bad timing.

Subsequently, let's prepare to run the program and get the CERS Preliminary on **Wednesday, March 6th**. This will require pulling a new CERS Submittal listing on 3/6 as well.

Good Afternoon Chris,

We are preparing to get the HMBP Robot project back up and running. We have some new team members that will be helping us with this from the Corona and Indio offices – Thasin Sultan and Jessica Duron. In that vein, Rose tried running the program today and received the below error message. This is the same error message we sent back in December (see the highlight email below). Would you be able to help us troubleshoot this issue?

We are wanting to meet with the new team very soon (as early as tomorrow) and we are trying to avoid any major snags.

Thanks,

I just made an update. It ran successfully for me. You are going to see a few more files in the folder. In the folder I created a Run HMBP shortcut. This runs the winHMBP.exe. You can copy the shortcut to your desktop instead of having to go to HMBP folder each time to run the winHMBP.exe.

It's the Enforcement Letters that we wanted to be a manual process when generating them in EC, but we still need the list to see which facilities are up for enforcement.

Hi Chris,

We were able to successfully generate the attached CERS Preliminary list today by running the Robot. It was great. We did have a question though; the system did not

generate an enforcement tab with facilities that were on the NOV 2 list for the last run--do you know why? I attached our previous run to show the difference where the enforcement tab is included.

As discussed on our call for HEAP/Robot on 2/22, we will be running the program tomorrow, March 6th to get the CERS Preliminary list to disseminate to the Sups. Can everyone jump on a quick call at 8:30 or 9AM? Please reply and let me know.

I am hopeful it will only take about 30 mins to grab the list.

Thanks Rose and Chris for all your help and efforts with producing a list.

When the HEAP team met yesterday, we established that it would be better to run the program (again) when everyone gets back from CUPA conference, and will have time to review and return the preliminary back to us within the one week deadline. If we send out this list, staff at CUPA will not have the focus to review. Just bad timing.

Subsequently, let's prepare to run the program and get the CERS Preliminary on **Wednesday, March 6th**. This will require pulling a new CERS Submittal listing on 3/6 as well.

Hi Chris,

Dan and I are attempting to run the HMBP Robot and we hit a snag. We keep getting the below error messages after we try to upload the excel spreadsheet titled CERS Submittal Listing. We first got the message because of CERS Duplicates so we took care of those and now it still does not want to upload the spreadsheet. Can you explain to us how to troubleshoot this type of error?

How is being Supervisor going? I have been meaning to reach out, but work life has been crazy. I have been dealing with an issue that has been taking a lot of my time. By the way, thank you for fixing the restaurant grading site here a few weeks ago.

I was working on my research this weekend and was wondering if I could get the data for just routine inspections 002's and 001's for my initial 6 cities and the county overall?

Hope all is well,
Sarah

Would it also be possible to get the data (for all the cities), but instead of including the violations with point associated getting the violations with something written, but no point assigned (the notes)?

Subject: Research project

Hi Chris,

Thank you for talking with me about my project and offering to help me get the data.

I am trying to determine if there is a difference in the risk factors found in restaurants in affluent and non-affluent cities here in Riv Co. I am looking at inspections conducted in 2017, 2018, and 2019. With site addresses listed as Blythe, Desert Hot Springs, Coachella, Indian Wells, Temecula, Eastvale. I am hoping to have the inspections grouped by city so I can compare all of the facilities for Blythe together and see if there are differences year to year, facility to facility, etc.

I need the points (so I can determine major, minor, or note) and inspector comments for the below listed violations.

Violations:

1. Food safety certification
2. Communicable disease; reporting, restrictions and exclusions
3. No persistent discharge from eyes, nose, and mouth
4. Proper eating, tasting, drinking or tobacco use
5. Hands clean and properly washed; gloves used properly
6. Adequate handwashing facilities supplied and accessible
7. Proper hot and cold holding temperatures
8. Time as a public health control; procedures and records
9. Proper cooling methods
10. Proper cooking time and temperature
11. Proper reheating procedures for hot holding
12. Returned and re-service of food
13. Food: unadulterated, no spoilage, no contamination
14. Food contact surfaces: clean and sanitized
15. Food obtained from approved sources
16. Compliance with shell stock tags, condition, display
17. Compliance with Gulf Oyster regulations
21. Hot and cold water available

- 22. Sewage and wastewater properly disposed
- 23. No rodents, insects, birds, or animals
- 25. Person in charge present and performs duties, demonstration of knowledge
- 26. Personal cleanliness and hair restraints
- 36. Equipment / utensils: installed, clean, adequate capacity
- 49. Food Handler certifications available, current, and complete

PE codes:

- 1620, 2620, 3620 Restaurant 1 to 2,000 sq. ft.
- 1621, 2621, 3621 Restaurant 2,001 to 5,999 sq. ft.
- 1622, 2622, 3622 Restaurant ,6000 sq. ft. or greater

I created the attached version of the PC report so we could review and discuss finalizing the report.

This version has an SR Status and PS Status column. There are scenarios where the SR is active, but the plan status is blank. Should that be counted as a submission? What if the SR is active, but the customer cancelled should that be on the report?

The attached version includes Active and Inactive and I show the average days to reject is 13.36 and the average days to approve is 12.14.

However, the average is based on the fact that the plans were rejected and or approved.

I think a quick 15 to 20 minute discussion would be best. The report is ready just need to finalize.

Hi Rebbeca,

We are going to be building a Dog pool for the Barkingham Palace in Palm Desert. We have submitted our plans to the city of Palm Desert building department and they have requested us to contact your office to see if your office will require a permit or if it's something that is waived by the environmental health department. This pool is meant to be used by animals only (dogs). I have attached a copy of the landscape plans. Please let us know if you should have any questions.

Hi Shantel,

This property has a long standing dispute between the RP and the State Small water system. The well is drilled on the RP's property, but is controlled by the Weber Valley Heights Association (the water system) and the permit on file for the well shows the wrong APN. Please see Jeff Johnson's letter from 2013 regarding our Department's stance on this dispute. Perhaps he thought if he waited 10 years, he could get a different response?

My thought on this is to respond to his email and reiterate our Department's position. His current complaint does not address any water quality issues. I could even attach Jeff's letter from 10 years ago. Your thoughts?

Just a reminder that everyone should be inspecting , NOV'ing, and communicating to the operators of the facilities on this list to pay for their permits this week. Unless you have a complaint or a recheck, these are the highest priority inspections. Please let me know when you are about to close places for operating without a valid permit (this should be next week).

Tina and Amalia - Can you please add the districts to each PR on the attached list and provide the inspectors with the updated list?

Inspectors - Can you please go out and provide each of the PRs on that attached list an NOV along with a routine inspection? We are giving them no more than a week to pay or close. Please make sure you follow up after the week deadline to ensure they have either paid or you'll go ahead and close them for operating without a valid (current) permit. Please also collect a current phone number and email address for each facility you are inspecting. This will be the norm for all inspections so we can continually update HS with the most current contact information for all of our sites.

As a side note, for all OOBs Fiscal needs to be notified that we are writing off any remaining fees. They are not automatically notified of this so we need to include that line in our emails to them.

Hello everyone,

By my count there's about 39 places on the attached aging report that still need to be addressed. Can we please work on this list before conducting other routine inspections? This list is on the shared Palm Springs drive, so please address the facilities and update the list by the end of next week. I'd like to let Kristin know that we have completed this list ASAP.

Thanks for the list Kristin.

I have some questions.

1. Are **all** of these facilities on the list >120 days delinquent (meaning they are at pay or close status)? **Yes, even though they are not at 100% penalty.**
2. Is the Invoice Date to be treated like a permit due date so we can figure out how much is owed, or are the amounts listed in column P the amounts due for each facility? **Column P is the amount due. If a penalty has been applied, you will see two invoices with two amounts. That is the total amount due. The Invoice Date logic will be inconsistent because it changed from EC to HS.**

We will inspect and provide NOV's to all of the facilities that are late paying their permit fees. Are we closing facilities that aren't paying their permits? I ask because I know we paused that some time ago. **Yes – closing after given NOV and time to pay. I can't recall, but I believe it's a week.**

Good morning,

Please find attached the Aging Report which reflects all payments received as of April 30th. The report includes facilities with accounts over 120 days past due. Some accounts have been assessed the 20% penalty. Invoices are included as a separate line, under the permit fee. As a reminder, only some penalties have been applied because Fiscal has to manual add penalties. We have asked they pause assessing penalties and focus on the collections of less than 120 days.

Please focus on the facilities that need an inspection and issue the NOV as part of the inspection process. As always, please let me know if you have any questions or concerns.

Thank you for your understanding and flexibility during this transitional period. HS has corrected the script to automate penalties which Fiscal is testing. Once this application works properly, Fiscal will be able to apply penalties which will encourage prompt payments in the future.

Hey Team,

I combed through D24 and found some facilities to be in the wrong district. I also was able to review D22 & D25 as far as which facilities I knew that should be in my district (D24). I had one facility that was located in Perris...thanks Health Space.

I agree Emmily.

Hilario, can you please review the D24 tab and highlight and notate any changes that need to be made (just like Emmily did for D21)? Shanna, you can go next, then Mark, then Darrel. Carolinn can you take a shot at addressing D22 and D25?

Again, we are just identifying the known issues (facilities in the wrong districts).

Let me know if you guys have any questions.

Thank you for this Emmily! I know that each of us appreciate all of the care and effort you took in making our transition into 'life without Emmily' a little easier by creating these maps and lists.

I was inspired by Emmily's efforts and came up with a very simple spreadsheet that I'd like for each of you to review. The information in the spreadsheet is from HS for each district. I'd like to know if there are mislabeled facilities (facilities in the wrong district, inaccurate DBAs, any missing facilities, etc.). Please indicate that by highlighting them and then adding the correct district/information in the far right column. I figured you could compare the list to your cards if need be, but I'm open to however you'd like to verify the remaining list will be accurate.

I plan to forward this list to (... 🤔) someone, who can make the corrections. It struck me Emmily when you said that HS was so error-riddled even with the correct facilities for your district, that it was better to use the old EC list. I'm going to see what can be done to make sure at least the facilities in the districts are maintained so we don't have to use that old EC list.

Please review and make your comments prior to the end of June.

Let me know if you have any questions.

Thanks.

Hi everyone,

I've created a folder in the Palm Springs Q drive containing maps and suggested routes for pool facilities in district 21.

Some areas within this district have clusters of pools that can be challenging to navigate and plot all associated permits if you're unfamiliar with the area.

To help with this, I've organized maps with a list of facilities in an efficient route order meant to be read from (north) top to bottom and (west) left to (east) right.

This will be clearer upon reviewing the maps.

I've also included comments on the maps to highlight helpful details such as OOB pools, nudist pools, pools that also have food permits, etc.

Subject: District 21 Pool Maps/ Routes

Hi everyone,

I've created a folder in the Palm Springs Q drive containing maps and suggested routes for pool facilities in district 21.

Some areas within this district have clusters of pools that can be challenging to navigate and plot all associated permits if you're unfamiliar with the area.

To help with this, I've organized maps with a list of facilities in an efficient route order meant to be read from (north) top to bottom and (west) left to (east) right.

This will be clearer upon reviewing the maps.

I've also included comments on the maps to highlight helpful details such as OOB pools, nudist pools, pools that also have food permits, etc.

Here's the link:

[Q:\DEH_DES_PalmSprings\Pools\District 21 Palm Springs Pool Maps](Q:\DEH_DES_PalmSprings\Pools\District 21 Palm Springs Pool Maps)

This is a work in progress so I will be adding more documents.
Let me know if you have any questions.

Have a great day,

I agree Emmily.

Hilario, can you please review the D24 tab and highlight and notate any changes that need to be made (just like Emmily did for D21)? Shanna, you can go next, then Mark, then Darrel. Carolinn can you take a shot at addressing D22 and D25?

Again, we are just identifying the known issues (facilities in the wrong districts).

Let me know if you guys have any questions.

Thank you for this Emmily! I know that each of us appreciate all of the care and effort you took in making our transition into 'life without Emmily' a little easier by creating these maps and lists.

I was inspired by Emmily's efforts and came up with a very simple spreadsheet that I'd like for each of you to review. The information in the spreadsheet is from HS for each district. I'd like to know if there are mislabeled facilities (facilities in the wrong district, inaccurate DBAs, any missing facilities, etc.). Please indicate that by highlighting them and then adding the correct district/information in the far right column. I figured you could compare the list to your cards if need be, but I'm open to however you'd like to verify the remaining list will be accurate.

I plan to forward this list to (... 🤖) someone, who can make the corrections. It struck me Emmily when you said that HS was so error-riddled even with the correct facilities for your district, that it was better to use the old EC list. I'm going to see what can be done to make sure at least the facilities in the districts are maintained so we don't have to use that old EC list.

Please review and make your comments prior to the end of June.

Let me know if you have any questions.

Thanks.

I plan to forward this list to (... 🤖) someone, who can make the corrections. It struck me Emmily when you said that HS was so error-riddled even with the correct facilities for your district, that it was better to use the old EC list. I'm going to see what can be done to make sure at least the facilities in the districts are maintained so we don't have to use that old EC list.

Please review and make your comments prior to the end of June.

Let me know if you have any questions.

Thanks.

Subject: District 21 Pool Maps/ Routes

Hi everyone,

I've created a folder in the Palm Springs Q drive containing maps and suggested routes for pool facilities in district 21.

Some areas within this district have clusters of pools that can be challenging to navigate and plot all associated permits if you're unfamiliar with the area.

To help with this, I've organized maps with a list of facilities in an efficient route order meant to be read from (north) top to bottom and (west) left to (east) right.

This will be clearer upon reviewing the maps.

I've also included comments on the maps to highlight helpful details such as OOB pools, nudist pools, pools that also have food permits, etc.

Here's the link:

[Q:\DEH_DES_PalmSprings\Pools\District 21 Palm Springs Pool Maps](Q:\DEH_DES_PalmSprings\Pools\District 21 Palm Springs Pool Maps)

This is a work in progress so I will be adding more documents.

Let me know if you have any questions.

Thank you for this Emmily! I know that each of us appreciate all of the care and effort you took in making our transition into 'life without Emmily' a little easier by creating these maps and lists.

I was inspired by Emmily's efforts and came up with a very simple spreadsheet that I'd like for each of you to review. The information in the spreadsheet is from HS for each district. I'd like to know if there are mislabeled facilities (facilities in the wrong district, inaccurate DBAs, any missing facilities, etc.). Please indicate that by highlighting them and then adding the correct district/information in the far right column. I figured you could compare the list to your cards if need be, but I'm open to however you'd like to verify the remaining list will be accurate.

Hello everyone,

I'm not sure why we are calling this the Aging Report, but think Delinquent Report.

Anyways, here are the list of places we need to inspect and NOV to prompt them to pay their permit fees. The amounts owed are in column N (labelled >120). Be aware if there are two (or more) line items for a single facility. Please add up the amounts and let them know the total amount owed. The NOV should be in the comments of the inspection report (so we can get an 02 out of it). Please give them a week to pay before we close them for operating without a permit (only if we actually find them operating without a permit).

This is a temporary method of addressing these reports (please see the highlighted section below).

Thanks for the list Kristin.

I have some questions.

1. Are **all** of these facilities on the list >120 days delinquent (meaning they are at pay or close status)? **Yes, even though they are not at 100% penalty.**
2. Is the Invoice Date to be treated like a permit due date so we can figure out how much is owed, or are the amounts listed in column P the amounts due for each facility? **Column P is the amount due. If a penalty has been applied, you will see two invoices with two amounts. That is the total amount due. The Invoice Date logic will be inconsistent because it changed from EC to HS.**

We will inspect and provide NOV's to all of the facilities that are late paying their permit fees. Are we closing facilities that aren't paying their permits? I ask because I know we paused that some time ago. **Yes – closing after given NOV and time to pay. I can't recall, but I believe it's a week.**

Good morning,

Please find attached the Aging Report which reflects all payments received as of April 30th. The report includes facilities with accounts over 120 days past due. Some accounts have been assessed the 20% penalty. Invoices are included as a separate line, under the permit fee. As a reminder, only some penalties have been applied because Fiscal has to manually add penalties. We have asked they pause assessing penalties and focus on the collections of less than 120 days.

Please focus on the facilities that need an inspection and issue the NOV as part of the inspection process. As always, please let me know if you have any questions or concerns.

Thank you for your understanding and flexibility during this transitional period. HS has corrected the script to automate penalties which Fiscal is testing. Once this application works properly, Fiscal will be able to apply penalties which will encourage prompt payments in the future.

Emmily,
I'm going to send this around to each one of you for your input. I have attached a categorized inventory of the facilities in our area, sorted by districts. Can you please highlight the facilities that are NOT located within your district. I have started with ones I think aren't in the proper districts. There are 4144 entrees total, but again, I just need you to review your district. Please send it back to me as soon as you are done so I can forward it on to the next inspector.

Carolinn - Can you please take a look at D22 once everyone has marked up this attachment?

FYI – I’m just waiting for Steve’s response on how we should move forward. We have saved all of the emails and scanned documents (including the subpoena) to our shared drive in the Subpoena 3-2024 folder.

Sorry about that last incomplete email Steve.

Ken and I were discussing the attached subpoena (last attachment) and had some questions. Is the email below (and attachments) examples of the types of emails we should be providing for this subpoena? I ask because there are a few of these in the 150+ emails that IT recovered. There’s also some emails from the EPO side discussing other franchise agreement information that happens to have the name of the mobile home park on one of the lists. The portion of the subpoena that caused some concern is Attachment 3 under Documents Requested “...any permits for any work of any kind previously done or planned to be done at the **PARK**, and each and every other writing which refers or relates to the **PARK**.”

Would this also include emails discussing something as routine as who is doing the park reinspections? Some of this occurred while we were telecommuting so it reads a bit like a text conversation (one sentence emails, etc.). I don’t want to withhold anything, but I also don’t want to unnecessarily overshare. How should I proceed?

Also, can we utilize the county’s request for records system to provide all of these files for this subpoena or do we have another digital method for providing all 469 MBs (154 files) and 5 inches of paper documents other than sending like 20 emails?

One of the things revealed in today's Supers meeting was that management is seriously considering reinstituting permit penalty fees. The thought is that beginning November 1st penalty fees are back on..... maybe.

If we end up going back into the purple tier on Tuesday then we would consider waiting a bit longer before adding the penalties. But if we stay in red November 1st is go time for penalties. Obviously this would be good to know BEFORE we start calling facilities for permit payments. I'm considering that we would start calling facilities next Wednesday morning to see if we can collect payments before penalties are reimposed. Tina and Amalia we can discuss how best handle the phone calls. Inspectors - please review the lists and consider your approach with these facilities. After all of the over the phone payments have been received and we turn the list over to you, you'd be going out to collect permit fees from these places. Tack, diplomacy, and empathy are some things that we will certainly need to display during these times; which I'm confident that you all will do.

I'm open to discuss this whenever you have questions and certainly at the next staff meeting. I may move that to after Tuesdays BOS meeting (so Thursday???)
